Get a little Pet Therapy

by
Jacqueline Whitmore

Several years ago, I had the good fortune to take Oliver, my Cavalier King Charles Spaniel, to Chicago with me. Oliver is an 8- year-old certified therapy dog. Whenever I travel alone on an airplane, I generally mind my own business and rarely go out of my way to talk to strangers (Oliver is small enough to

continued on page 3

Dear TDI Friends!

Have you ever noticed that time passes faster and faster the older you get? Have you also thought, oh, they are old people, but you don't include yourself?

Time has flown at TDI. All the people who were on the first TDI visit are now gone, I am the only one left, I was by far the youngest in 1976. More and more I see names of our members going over the Rainbow Bridge, yet they have left something behind, something great! Their work and their untiring enthusiasm, their persistence to bring our dogs to where they are needed, to help other people. TDI is a self-perpetuating organization built on a solid foundation. We are still building. Oh, there are problems at times just like with any other construction projects. There is competition and downright plagiarism whereas others copy our design and steal some of our crew (associate members) to further their own need to shine or make money. It doesn't work well that way. Perhaps for a while, but if you don't have the foundation, the know how, or the vision for the future, you will keep lagging behind. Think of "Big John", the country song. You can't keep a good man or something good down.

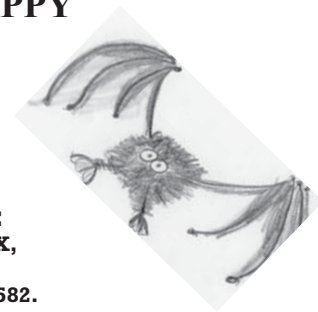

TDI belongs to all of those who work so hard in the field, the volunteers who with their stubbornness and persistence further the organization. We have to keep building, we are not done yet by far. Sometimes we have to make some changes in our plan when we see something is not going to work in the construction project of our great structure envisioned and worked on by so many. Thank you to all the past and present volunteers!

Best wishes for a "HAPPY HALLOWEEN" and a "HAPPY THANKSGIVING!"

Ursula

URSULA KEMPE OR URSLEY KEMPE WAS BORN 1525 IN ST. OSYTH, ESSEX, ENGLAND. SHE WAS ACCUSED OF WITCHCRAFT AND EXECUTED IN 1582.

continued from page 1

travel legally on a plane). But when I travel with Oliver, there's no time to read, nap, or do much of anything else I usually do. This is because I'm kept busy answering questions from strangers such as, "What's his name?" "How old is he?" and "What breed is he?"

As Oliver and I were on our way back home from Chicago to West Palm Beach, we sat next to a young soldier on the plane who looked like he was in his late teens. "Where are you headed?" I asked. "Afghanistan," he replied solemnly.

Be it fate or luck, I have a feeling that this soldier and I were meant to sit next to each other, because after several minutes of chatting with this young man, he mentioned that he had a dog back home. He then asked if he could pet Oliver. "Of course," I said.

During the two-hour flight, the soldier calmly and gently stroked Oliver's little head without saying a word. No words were necessary. For a brief period of time, the soldier's mind was no longer focused on the fact that he was about to go to war; he was focused on the unconditional love and goodness that only an animal can bring.

I am convinced that what we sometimes cherish in animal behavior is what we would like to see in humans. It's not often that we find a person who will love us without regard to age, status, income, physical appearance, or attitude. How many people do you know who always greet you with enthusiasm and are acutely sensitive to your moods? There's so much we can learn from our furry friends.

My name is Casey, but I'm called, Casey the Wonder Dog

by Patrick Murphy

I was born in a Missouri puppy mill, where I was abused and starved for two years before the BCCA rescued me and my sister, Bonnie. When my new dad stopped for gas for the two hundred and fifty mile trip to my new home in Alton, Illinois, the attendants at the station started to clean around the pumps with a pressure washer. I went wild and tried to cross a busy highway. At the puppy mill, they cleaned our cages with pressure washers, with us in them, and it terrified me.

I spent the next three months trying to escape because I did not want to be near humans. My dad treated me well, but he was a human. When I finally did escape, I ran across a highway and was hit by a car. I ran into the woods, using only three legs, and was in a lot of pain. Many people were looking for me, but if they got close, I was gone. After sixteen days, I was caught in a live trap. Dad found me, and took me to three veterinarians. Dr. Pope had to amputate my left front leg and shoulder. Still, I liked him. Since many humans did so much to help me, I decided maybe some of them were really good, so I stopped trying to escape.

Eight months later, I passed the therapy dog test and became a TDI therapy dog. Since that time, I have visited more than 100,000 people in nursing

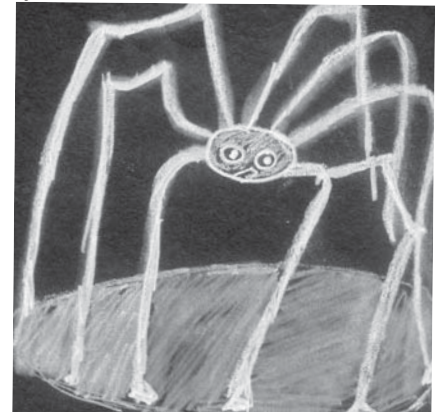

homes, worked on reading programs at children's libraries, and helped with dog bite prevention presentations for second graders. I also became the mascot for the rock group, "3 Legged Dog," and appeared on stage with them at rock concerts.

The Board of Directors of the Missouri Alliance for Animal Legislation voted on which one of the seventy-five rescued puppy mill dogs would be honored in 2008. I got every vote. I was then entered in the Jerseyville, Illinois Pet Parade, and was chosen the Canine King of Jersey County.

I really loved doing my work; it made my life meaningful. While I was physically able, I visited 21 facilities every month. When my front leg became too painful, I only visited places where people came to see me, instead of my walking from room to room. My last visit was to an infirmary at a convent. My dad had to pull on my leash so the bone in my front leg would not come out of joint. No one had any idea that I was in so much pain. That was good as my job was to make people feel better, not for them to worry about me. My dog sitter was on that last visit, and when we were leaving, she asked dad why he thought I was in bad shape as I seemed just fine to her. That visit was on Friday, March 17, 2012.

I have enjoyed many things during my life, and the thing I enjoyed most was playing mind games with humans because I always won. I have no idea why so many humans do not understand that we are smarter than they. Maybe someday they will catch up with us. I hope so.

On Monday, March 20, 2012, three days after our visit to the convent, I went to the Rainbow Bridge, where I am waiting for dad. When he gets here, everything will be perfect. I send my love and thanks to all those who made my life wonderful.

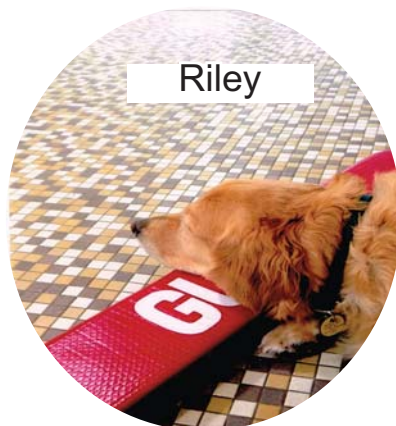

Izzy and her owner Theresa recently had a remarkable experience at HPH Hospice. They entered the room of a woman who was actively dying. Izzy laid on the bed as Theresa talked to the woman's daughter. When they were about to leave, the young woman asked her mother to blink if she wanted Izzy to stay. Her dying mother instead moved her toes. The daughter then began to cry and thanked them because she, "finally had a sign that her mother could hear her."

submitted by: Theresa Deasy

When Rob Weber experienced the benefits of a therapy dog firsthand after falling off of his roof and breaking his back, he knew he wanted to help people in the same way someday. So after becoming a lifeguard at the YMCA, he began to bring his dog Riley to the pool with him. Riley brings joy, fond memories, and smiles to all of the patrons during Rob's shift, and continues to make exercise enjoyable for many.

submitted by: Robert Weber

Tucker the Home Therapist

My miniature schnauzer-poodle mix, Tucker, has been a TDI-certified therapy dog since he was about 20 months old and began his therapy work shortly thereafter in the fall of 2007. Two times each month Tucker and I visit a VA hospital in our area. We also go twice each month to a special school for severely autistic children. Tucker takes his assignments very seriously and also enjoys his therapy work.

Recently I became the beneficiary of Tucker's serious approach to his therapy work. Six weeks ago I had surgery for a total hip replacement.

When I returned home from the hospital a couple of days later, Tucker was ready to go to "work". Upon my arriving home and lying on the couch, he immediately jumped up on the couch, lay on top of my stomach and put his head on my chest. (Fortunately he only weighs about 20 pounds.) Each morning as soon as I finished my breakfast, he climbed into my lap as I finished my coffee in the kitchen. Then when I re-located to a lounge chair in the family room, Tucker curled up in my lap for a siesta.

Throughout each day if I was in a chair he was on my lap. If I was on the couch, he was on my stomach or my feet. The only time he left my side was to go outdoors to do his business or take his daily walk with another family member. But as soon as he returned, he ran back into the family room to check on me.

Most interestingly, as I have gotten stronger over the past six weeks, Tucker has slowly reduced his attentiveness. Now he is mostly back to giving me the normal daily attention and affection that he did prior to my surgery. Little did I know that I have spent 4 years preparing a therapy dog for myself!

Besides being a calm therapy dog, Tucker is also a very enthusiastic agility competitor. He needs only 7 more qualifying runs to earn his championship in Canine Performance Events.

Therapy dogs come in all shapes, sizes, breeds and even health conditions. Charley, the black cocker spaniel (partner of Roz Hammond), had made over 100 visits when she developed knee and hip problems. Although she is no longer able to walk the halls of nursing homes and rehab facilities, she can continue her visits in her pet stroller. Patients with mobility problems now seem to relate to Charley in a new and special way. They tell Charley about their hip problems and even have offered to baby sit with her. One nursing home has Charley on their prayer chain. Charley loves her therapy dog visits now more than ever!

submitted by: D. Rosalind Hammond

Charley

Tierra and Nellie

Tears rolled down the face of Jeanne Hess as she watched what was unfolding. Nellie, a resident of the assisted living facility where Jeanne and her dog Tierra visit, is unaware of her own existence in time or space. Her eyes are unseeing, her mind is uncomprehending, and her face is devoid of emotion. Nellie is a victim of advanced Alzheimer's disease. However, as Nellie's hand was placed on Tierra's soft, golden, fur, a change occurred. As the dog sat still and quietly beneath Nellie's hand, her flaccid fingers began a stroking motion, and a long forgotten memory, sensitized by the touch to a once familiar action, began to flicker in Nellie's once lovely, brown eyes. Although the moment was brief, the impact was enormous.

submitted by: Jeanne Hess

INTERACTION BETWEEN TDI DOGS AND PEOPLE DURING VISITATIONS

PLEASE TAKE THE TIME TO READ THIS

Visiting with your TDI Therapy Dogs in Facilities and also at Private Residences.

Please make sure to watch the video we sent you and also read the membership guide. With the information given to you there you should be able to go out and visit with confidence. However, we would like to advise you of several additional points.

Infection Control

In Hospitals, Nursing Homes, Schools, Libraries or other Facilities including Private Residences or wherever else you might visit you might come in contact with germs which could be potentially harmful to you and your dog. We want to make sure that you take some precautions to protect yourself and your dog.

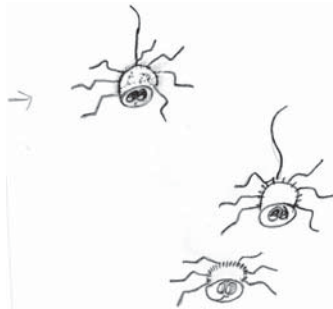

Facilities such as hospitals and nursing homes usually have some type of Infection Control policies in place, but to be sure we would like to recommend the following:

- Prior to visiting a patient, wipe your hands
- Prior to the patient visiting with your dog the hands of the patient should be wiped by hospital personnel or by the patient (not you, the dog handler)
- If the dog has to lie on the bed to be made accessible to the patient, a protective cover (fresh sheet for each patient must be used).
- When the visit is concluded with a patient, the patient's hands should be wiped again
- These procedures should be repeated for each patient.
- These same procedures should be followed wherever you visit.

After leaving the facility and prior to the dog getting into the car, the handler should wipe the dogs feet, and back, or wherever the patients have touched the dog (including the dog's collar or harness or lead). It goes without saying that the bandana should be washed after each visiting day.

These are simple precautions to take in order to protect yourself and your dog.

Thank you for being a volunteer!

CHAPTER BUSINESS

TDI has a new website for chapters. You may access this website but only the four general pages. The web-address for the chapter page is: www.tdichapterdivision.org with a special password: "Join". Please type in the first line "none"

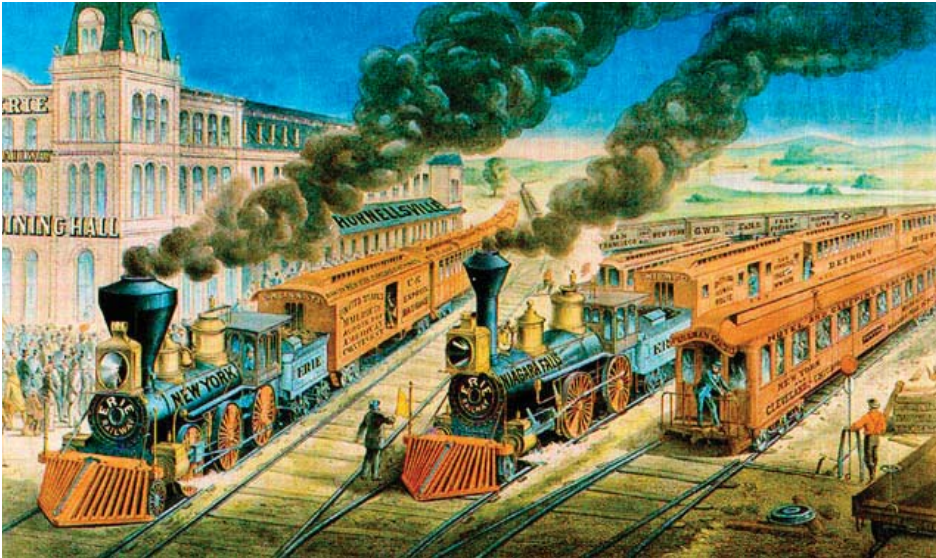

The individual chapter pages are only accessible to the respective chapter members. The chapter code has been emailed to all the individual chapter members previously.

If you would like to join a chapter please click on "Find Chapters". Put in your zip code where you live and put in mileage until you find the chapter nearest to you. You can look up the info on the Chapter webpage how to start a chapter, or the same info is in your membership guide.

The Wandering Lab

been given a dog treat from the drive through window at the local bank, he continued to stop there often on his travels. For their part the bank tellers learned our phone number by heart. Even at the age of fourteen we received a phone call from the gas station a mile up the street that he had visited.

His longest trip though was to New York City. When we could not find Buick, we went out searching as usual. However no one called and he did not return. After a few hours we gave up and went to bed. It was around 3 am when we received a call from a train conductor at the local station. It should be mentioned that I grew up in the small New Jersey town of Peapack-Gladstone where my dad worked at the police department. Peapack is the terminus of one of the train branches and mostly services a few sleepy commuters before it joins with the main line and other trains headed to NYC. Buick had hopped on board the morning commute where the conductors eventually found him sleeping on one of the seats. They had let him ride to and from the city with them and by the time we arrived to pick him up they were sharing donuts with him in the conductor's office.

When I was growing up my family had a big black lab we named Buick. Born with a strong case of wanderlust he would follow his nose wherever it took him. The fact that his nose took him out of the yard and miles away despite our best efforts, didn't seem to bother him. Perhaps our first clue should have been when he was a puppy. Heavy rain had flooded the stream behind our house and taken him with it. We set out down the stream bank but after a while were forced to give up and return home. When we did we found our wet black puppy sitting by the front door waiting for us.

by Charles Thompson

From then on it was a matter of trying to keep Buick from wandering too much if no one was around to watch him. When we reinforced the bottom of the fence to stop him from digging out, he jumped over from the roof of his doghouse. Leashes and collars faired no better;

he learned to slip out no matter what. Eventually we nick named him "Houdini Dog" for his habit of escaping. In the end he would always

return either on his own or with the help of a new friend he met on the way (reading our contact info off his tag). No one ever seemed to complain and most told us he was very well behaved and friendly. Having once

PAWS UP!

TDI Chapter 131 received the Volunteers of the Year award from Memorial Health University Hospital. Pictured here from left to right: Cleo and Sandra Trickett, Christopher O'Malley and Mia, Charles Henderson and Lucy, Krystal Pickney (who nominated the Chapter), John Moon and Honey, Betty Heery and Abby, Lynn Skinner and Grayson, and Sheila Phillips and Wolfie.

Dennis and Myra Kalodish's dog, Diamond, received the 2012 Gold Standard Award. This award is presented to a golden retriever who performs honorable, heroic acts or who enriches, inspires, or contributes to the lives of individuals and communities. Diamond received this award because of her volunteer work at nursing homes, hospitals, hospice, and the "Make-A-Wish" foundation.

Patricia Roes' greyhounds Elijah and Diamond, partnered with Stephanie Rosenberg in setting up a reading class at Arlington Elementary School. While the dogs were there, a young girl with Downs' Syndrome who was afraid of Diamond, overcame her fear and enjoyed petting and reading to the dog. It was a successful project and fulfilling to all who were involved.

Diane Abolt recently received the WTOC TV Hometown Hero award. Diane received this award based on her time spent volunteering at the Savannah-Chatham Animal Control Shelter and Rescue Center. Diane has also founded the non-profit organization Friends of Animal Control Team Savannah or FACTS. She helped create "The Rainbow Bridge", a place to mourn for people who have lost pets. We congratulate Diane and thank her for her tireless efforts.

Rico and his owner Al Sundstrom completed their 1,000th therapy visit. Before the visit started, they gave Al hand-made cards to show and read to Rico. You wouldn't know that these people had gone through tragedy, abuse, and grief. They had come to love Rico and to share their stories with him. He listened without judgment, leaned into them when they cried, and put his head on their lap for comfort. He always came to them in joy and happiness, ready to share his love. The day was a celebration of a dog's love for them and theirs for him.

On May 23, 2012, Linda Kolodny and her husband were awarded the Humanitarian Award from the Virginia Center for Inclusive Communities. Linda's piece was her involvement in the therapy dog community. The VCIC conducts programs that promote understanding and respect on all issues of diversity, for all age groups, all across Virginia. Linda and her dogs Goliath and Mutzie work in hospices, hospitals, nursing homes, etc. They are also very active in working with the Tail Wagging Tutors groups in a minimum of four schools, plus two after school programs to have all children in their community become more competent readers.

On May 23, 2012, four TDI dog/handler teams were honored at the Heritage Centers's Annual Meeting as their "Volunteers of the Year." The teams visit the Heritage Center's Tonawanda, NY site for preschoolers with handicapping conditions, twice a month throughout the year. Those honored were Sue Seiler and Daisy, Carol Kostelnik and Benji, Carl Edholm and Nellie, and Bonnie Donaldson and Lilly.

A Ward Clerk/CNA at Gordon Hospice House was very leery of dogs because she had been bitten three times in the past. However, upon meeting Gus the therapy dog, she was able to overcome that fear, even to the point of enjoying having Gus sit in her lap because of his adorable face, good manners, and quiet demeanor. GHH is thankful to Gus and his "parents," Joann and Doug Canipe, for their volunteering efforts three weekends each month.

Some Odds and Ends.....

TDI had a very busy year. We implemented many improvements which saves you and us a lot of extra time.

Our updating the Health Record Form once an application expires and sending it in to us will be of benefit once renewal time (just around the corner) comes around.

New associate members can now take their test online, and so can our new evaluators. The Facility Visitation Form can now be completed online as well.

TDI has an improved bandana where we have the logo embroidered rather than just screen printed. For the second dog you register we will have to give you the old bandana since we have some left over and since we only charge \$5.00 for each additional dog.

We have been busy on various missions with our DSR program mostly in the Southwest. Please, why don't you consider hosting a DSR test? Without question, it is a lot of work, but just think how much good we can do in your Community, State or the Country.

As you all know by now we have a special chapter web page where the chapters can publish their news on their individual page. Why don't you consider starting a chapter. All the info is on the chapter web page or in you membership guide.

Have you checked out our social media sites? You can post photos of your dog in TDI regalia on our Facebook page, or photos of your visits as long as you have a photo release if there are other people in the photos.

Please be careful what you say on social media pages. Try to avoid saying my dog is visiting at this hospital or library etc. and where it is. Don't forget those pages are open to the public. You don't want to show a photo of a child and write were it goes to school or to what library it goes.

Just some thoughts and observations. Whenever you visit with children it would be nice if your dog would be able to do some tricks. Children always ask, " can your dog do tricks?" Just teach your dog to wave or roll over. It is not that hard, and the kids will really appreciate it. By the way, when visiting with children with a medium to large dog, put your dog on a down. It will be so much easier to for the children and less scary.

Another problem: some people cannot let go of their dog when visiting, meaning they keep petting their own dog while the dog is supposed to concentrate on the person it is visiting. This is the time where you have to step back a little, give your dog enough room to visit. You will be surprised what a difference it makes!

Your dog thanks you!

PLEASE NOTE: TDI requires all members to submit all public relations and media appearances to the TDI Office for approval prior to the appearance. We will not credit any member for a public relations or media appearance if it is not cleared with TDI in advance.

In Memory of Elaine Smith

5/30/1930 - 4/2/2012

Elaine Smith was the Founder of Therapy Dogs International (TDI). The idea of therapy dogs came to Elaine while working in England for one year. Seeing first hand the benefits the residents of some nursing homes derived from pets residing in a nursing home, Elaine brought the idea to the United States. In 1976 Elaine and four friends with their dogs went on the first Therapy Dog visit, in a nursing home in NJ. The visit was a great success. The idea of Therapy Dogs was born. Membership at this time was mostly drawn from NJ residents until 1982 when a national dog magazine published an article about this fledgling group and about the idea of therapy dogs in health care institutions. After that time the organization drew membership from many other States. Elaine's idea had taken hold.

From these small beginnings, with the hard work of the volunteers, a great organization evolved. Today's visiting therapy dogs are an accepted practice in most health care facilities, schools, libraries and other places where therapy dogs are needed. The idea has spread world wide. Today, we see millions of people during a period of one year. The benefits and the joy derived from therapy dog visitations are immeasurable. Elaine Smith will be remembered for her innovativeness in putting into action a great idea.

In Memory

We are saying good-bye to some of our dedicated TDI Associate Members. It is so sad to see that these dedicated volunteers have crossed over the Rainbow Bridge. Being a volunteer and helping others by bringing joy and comfort is one of the most satisfying jobs a human being can do. Being selfless until the end! You all will be missed, not only by us at TDI, but also by the people you and your Therapy dog had been visiting.

THE RAINBOW BRIDGE

There is a bridge connecting Heaven and Earth. It is called the Rainbow Bridge because of its many colors. Just this side of the Rainbow Bridge there is a land of meadows, hills, and valleys with lush green grass. When a beloved pet dies, the pet goes to this place. There is always food and water and warm spring weather. The old and frail animals are young again. They play all day with each other. There is only one thing missing. They are not with their special person who loves them on Earth. So, each day they run and play until the day comes when one suddenly stops playing and looks up! The nose twitches! The ears are up! The eyes are staring! And this one suddenly runs from the group! You have been seen, and when you and your special friend meet, you take him or her in your arms and embrace. Your face is kissed again and again and again, and you look once more into the eyes of your trusting pet. Then you cross the Rainbow Bridge together never to be separated.

In Memory . . .

We are saying good-bye to the following TDI dogs. We will always be grateful for the contributions these dogs have made to the lives of others. A very special thank you to their owners for sharing these remarkable creatures with us and for representing TDI so well.

	<h3 style="margin: 0;">Newsletter Submission Guidelines</h3>	

TDI wants to hear about your visits! We publish stories and photographs that grab and engage the reader, as well as portray the healing power of Therapy Dogs. Before you submit your work, follow these guidelines.

- Photographs of people must be accompanied with a photo release form (available online).
- Photographs should be printed on quality paper.
- Photographs should be properly labeled, i.e., identify the dogs or people in the picture.
- Stories must contain few or no mistakes (proofread).
- Stories should be to the point and the author must illustrate solid examples throughout the story, i.e., show a visit, don't summarize one.
- A hospital, nursing home, etc. is full of sights, sounds, people, and emotions. We want you to capture all these details.

TDIA

Therapy Dogs International Active Working Title

In recognition of the dog's tireless determination to visit with those in need of their unconditional love and the active volunteers who share these great dogs for the benefit of others. The following dogs have received their TDIA title by submitting the proper

documentation of 50 visits
